Only those products bearing the UL Recognized Component Markings for the U.S. and
Canada should be considered as being covered by UL's Recognition and Follow-Up Service and
meeting the appropriate U.S. and Canadian requirements.

The UL Recognized Component Marking for the U.S. generally consists of the manufacturer's identification and catalog number,
model number or other product designation as specified under "Marking" for the particular Recognition as published in the
appropriate UL Directory. As a supplementary means of identifying products that have been produced under UL's Component
Recognition Program, UL's Recognized Component Mark: **UL**, may be used in conjunction with the required Recognized Markings.
The Recognized Component Mark is required when specified in the UL Directory preceding the recognitions or under "Markings"
for the individual recognitions. The UL Recognized Component Marking for Canada consists of the UL Recognized Mark for
Canada: **ULC** and the manufacturer's identification and catalog number, model number or other product designation as specified
under "Marking" for the particular Recognition as published in the appropriate UL Directory
